

## Quality Assurance Engineer

**location: Maia, Portugal**

AET is looking for an enthusiastic and motivated Quality Assurance Engineer who wants to join our company.

### *Your responsibility as our Quality Assurance Engineer*

As our new Quality Assurance Engineer you will be part of the beating heart of our organization. You will primarily design, edit and harmonize test ware and tooling and perform automated tests for all AET products, using a methodical approach. Other core activities in this position are some degree of manual test execution, optimizing test processes and initiating process and tooling improvements.

### *Our ideal candidate*

The **Quality Assurance Engineer** has the following qualifications and experience:

- 2+ years of experience;
- MS/BS degree in Computer Science, Engineering or equivalent preferred;
- Excellent written and verbal communication skills;
- Knowledge of SQL and scripting;
- Knowledge of test automation techniques, frameworks and tools (Selenium);
- Experience with End-to-end and/or API automated testing using Postman/SOAPUI;
- Knowledge of Performance, Stress and/or Security testing;
- Be fluent both in Portuguese and English (speaking and writing), we value Dutch.

We would be happy if you have:

- TMap/ISTQB certification;
- Familiar with Atlassian products (JIRA, Confluence and Bitbucket);
- Some experience on support processes (ITIL);
- Past experience as a Software Engineer.

### *What we offer*

- Salary according to experience shown (food subsidy included);
- Professional stability;
- Health insurance plan for our associates and family;
- Company mobile phone and communication plan;
- 26 vacations days.

Since we are an international company we are looking for a candidate who can communicate fluently in English (both in speaking and writing) and Portuguese (both in speaking and writing).

## Part of the AET Philosophy

No matter who you are or what you do; there is always a specific world you want, or need to access. AET makes this possible by creating the perfect technological solution in user identification, authentication and authorization: unlimited access, 24/7.

We do not only believe your world should be accessible anytime. We are also determined to make this access easy and secure. At a time when almost everything is digital, security has become our main focus.

By creating unlimited, secure and convenient access to your world, we ensure that you have the power to control your own world. You, and nobody else. In devising the best technological solutions, we need to be fast, smart and inventive. So that's exactly what we are. We are also passionate: about technology; about our business; about the possibility of providing convenient access to different worlds.

In our vision, everyone can benefit from the technology we offer. Because everyone deserves reliable, safe and unlimited access to the world he or she wants to enter.

Do you want to be part of this philosophy?

### **About AET**

AET Europe (Advanced Encryption Technology) is a technology company in applied crypto, which has over more than 20 years of extensive knowledge in the high end security. We are the biggest independent cryptographic middleware specialist worldwide and therefore have a strong footprint in state-of-the-art (mobile) authentication and digital signature technology. AET is headquartered in Arnhem, the Netherlands, has subsidiaries in Portugal and Serbia and has currently over 50 employees.
